

The Referral Program

A better way to

Multiply Your Bitcoins 24/7

Simple Equation

Trading and mining

The majority of our profits at 24/7 Gains comes from the growth of our mining platform. Although trading adds a significant amount to our revenues, our focus for future growth is in the expansion of our global mining operation. Currently, we have mining operations in 3 different countries in North America and Europe and are quickly expanding to energy efficient countries.

We have been fortunate to be in a position to diversify our mining operations globally. As our company grows, and profits rise we will continue to expand our mining operation to become one of the biggest in the world.

Network Marketing Industry

We have chosen the Network Marketing Industry because we believe in word of mouth advertising. Many companies use traditional forms of advertising such as television or radio ads. 24/7 Gains has decided to use what we feel is the best form of advertising, and that is a referral marketing! When developing our referral program, it was important for 24/7 gains to create a plan that is simple to understand. Our philosophy is the easier it is to explain to others, the easier it will be for our members to earn referral commissions through our lucrative compensation plan.

The combination of our services along with Network Marketing has created an exceptional opportunity for the average person to earn BitCoin daily! You can multiply your BitCoin in just a few months or even sooner by referring others.

A Simple Equation

24/7 Gains has created a simple equation for you to multiply your BitCoin as many times as you would like. Each time you double your BitCoin, you will have the option to renew your package and have the opportunity to double it again. You can do this as many times as you would like.

The powerful combination of our services and our referral program created an outstanding opportunity for anyone to drastically increase the amount of BitCoin they own. Best of all it can happen in a few months or even sooner if you refer others and earn Binary Pay.

Our Packages

Package 5	2.2%	1 BTC
Package 6	2.2%	2 BTC
Package 7	2.2%	5 BTC
Package 8	2.5%	10 BTC

Binary

A Binary is simple to understand!

You need one person on the left side of your binary and one person on the right side of your binary. Once you have this, you are qualified to earn Binary commissions.

With the binary plan, balance is crucial!

It is important because each person earns money based on the lower volume leg – the Lesser Leg in relation to the higher volume leg or the Power Leg. On this note, the best business strategy is to build first your Power Leg and then to move to the Lesser Leg.

You are 100% responsible for building your inside leg.
